HYPOXI® Vietnam – Their Journey

Straß im Attergau, June 2023

"Becoming a better version is a never-ending journey. Thank you for joining us and creating the HYPOXI® story."

With a grand event in the beautiful gardens of the "Rose Villa", HYPOXI® Vietnam invited around 100 guests on Saturday, 22 April 2023, to review the journey to the past and look forward to a bright future in the present.

This was an opportunity for HYPOXI® Vietnam to express their deep gratitude to their Members and Partners for accompanying HYPOXI® in the journey to perfecting their physique, giving customers the most complete workout experience.

KEY ACTIVITIES – "THE JOURNEY" GALLERY

HYPOXI® Vietnam believes each person has its own beauty and has been unable to discover it.

It is the first art project with HYPOXI® loyal customers to celebrate even the most minor achievements and represent each person's "realizing and loving yourself" milestone.

HYPOXI® TRANSFORMATION CHALLENGE 2023 – AWARDS

The "HYPOXI® Transformation Challenge 2023 - Be Your Best Version" has ended.

After a 6-week "Journey to change shape", Ms Ngoc Tran won the "Body Change" category with a total circumference loss of 29 cm.

She received an ICONIC training card for one year and an HYPOXI® brooch of 24-carat gold worth 150 million VND.

REVEAL NEW STUDIO AND PACKAGE

The special project will appear in the near future - The first HYPOXI® Premium Studio in Thao Dien, District 2, HCM City, Vietnam.

With many emotions from nostalgia, pride, happiness and anticipation, HYPOXI® Vietnam hopes that "The Journey" was a memorable event for everyone and a small milestone for them to be proud of their achievements.

We look forward to the future together!

The HYPOXI® devices at a glance:

HYPOXI-Trainer® S120

The S120 combines the three components of HYPOXI-Method® effectively: The computer-controlled alternation of high and low pressure takes place in a chamber that reaches up to the hips. The gentle exercise takes place sitting on the integrated bicycle ergometer. This puts the problem areas – hip, underbelly, buttocks and legs - under pressure, facilitates the activity of the veins and eliminates fat in a targeted manner.

HYPOXI-Trainer® L250

The L250 permits the alternating application of low-pressure for the underbelly, hip, behind and legs. The comfortable reclined position relieves the body of most of its weight during training and promotes the elimination of liquids and toxins. The results are beautiful, slender legs and a visible reduction of cellulite.

HYPOXI-Vacunaut®

The Vacunaut is used to reduce the girth of the stomach and hips. Training is performed in the HYPOXI®-PressureSuit with an integrated network of 122 high and low pressure chambers.

During moderate exercise - which can take place on a treadmill, exercise bicycle or other popular cardiovascular exercise equipment - the application of high and low pressure targets the abdomen and hips.

HYPOXI® HD-Comfort

In order to remain firm and strong the skin needs special treatments. 400 active vacuum chambers integrated in the problem areas in HYPOXI® HD-PressureSuit ensure that the skin gets the exercise it needs. A comfortable lounge chair with integrated high and low-pressure technology ensures pleasant relaxation while the elastic connective fibres of the skin work diligently to achieve smooth, firm skin.
