

Press release

Efficient and sustainable to a beautiful figure with HYPOXI® now also in Stuttgart

Straß im Attergau, July 2023

At a pre-opening celebration, *FormYourBody GmbH* presented "HYPOXI®" as a proven method for targeted fat loss without dieting mania.

The Stuttgart beauty expert Dr Nico Leibinger and his business partner, graduate business economist Achim Niess, invited loyal customers and many new guests to the newly designed premises at Augsburgstr. 627, in Stuttgart on Thursday, 29 June 2023. This was an excellent opportunity to introduce this unique method for perfecting the body.

The HYPOXI® team Stuttgart firmly believes that there is a suitable solution for everyone to feel good in their own body and to discover their beauty.

FormYourBody offers HYPOXI® and classic beauty methods as well as other non-invasive treatments with the innovative medical device Emsculpt Neo.

The official opening will take place on Saturday, 29 July 2023 from 10 a.m. to 2 p.m.

Adress: *FormYourBody GmbH*, Augsburgstr. 627, 70329 Stuttgart

The HYPOXI® devices at a glance:

HYPOXI-Trainer® S120

The S120 combines the three components of HYPOXI-Method® effectively: The computer-controlled alternation of high and low pressure takes place in a chamber that reaches up to the hips. The gentle exercise takes place sitting on the integrated bicycle ergometer. This puts the problem areas – hip, underbelly, buttocks and legs - under pressure, facilitates the activity of the veins and eliminates fat in a targeted manner.

HYPOXI-Trainer® L250

The L250 permits the alternating application of low-pressure for the underbelly, hip, behind and legs. The comfortable reclined position relieves the body of most of its weight during training and promotes the elimination of liquids and toxins. The results are beautiful, slender legs and a visible reduction of cellulite.

HYPOXI-Vacunaut®

The Vacunaut is used to reduce the girth of the stomach and hips. Training is performed in the HYPOXI®-PressureSuit with an integrated network of 122 high and low pressure chambers.

During moderate exercise - which can take place on a treadmill, exercise bicycle or other popular cardiovascular exercise equipment - the application of high and low pressure targets the abdomen and hips.

HYPOXI® HD-Comfort

In order to remain firm and strong the skin needs special treatments. 400 active vacuum chambers integrated in the problem areas in HYPOXI® HD-PressureSuit ensure that the skin gets the exercise it needs. A comfortable lounge chair with integrated high and low-pressure technology ensures pleasant relaxation while the elastic connective fibres of the skin work diligently to achieve smooth, firm skin.
